

President's Report

Welcome Woodies,

Competition and Open Day. I think it was great weekend for ourselves and for the public. What about you? It was successful in many ways – many items sold, unwanted timber slabs sold, reputation enhanced, (free) parking in a calm and quick manner, competition items standards were exceptional, public acknowledgement of a great event. Even for you- did you enjoy being part of an event and proud to be part of it?

Many thanks also to our sponsors who donated vouchers to reward some outstanding skills and creativity.

Our three monthly general meeting was held on Sat 10 May with a good attendance. On the agenda was a motion about if we want to participate in another open day on the long weekend of October. We have till about late June to decide so make your thoughts visible to the management team or to Keith Carter, our event manager.

Accreditation process. We now have an expanded Mentor list of experienced members who can help you through the safe actions to get you accredited. Not only is this for “newbies” but for all those who were accredited before but now there are new machines which operate in different ways, so you need to update your status on these machines.

Park Benches. We have a new project to help the community. In 2015 we donated some park benches to the Maleny Soldiers Memorial Hospital. Sadly they are now unsafe due to water ingress and the harsh hinterland weather. We need a group of volunteers to create some new benches out of tallowwood. Those interested should contact Graham Bradford, via the noticeboard. The course/ project will start about mid-June. Details will be on the noticeboard

soon. Come and learn about creating multiple joints, working with tallowwood and increasing your skill levels. And of course producing some new benches for our friends and families at the local hospital.

For those recovering from surgery (Brian H, Ron D and Ray B) or illness or just feeling unwell, we are thinking of your recovery and a return to the Sheds. Stay safe and see you soon.

Regards,

Rick

Woodies Acknowledge Sunshine Coast Council Grants

Blackall Range Woodcrafters Guild Inc has recently received some excellent support from Sunshine Coast Council by way of community grants.

Proudly supported by
Sunshine Coast Council's grants program

Shed Managers' Report

A very busy month on the maintenance front, and you could sum up the month as "Mr Nobody Strikes Again". We need to do much better.

Maintenance:

The significant items have been:

- Two band-saws with broken blades, being B1 and B4. Both have now been fitted with different blades, so check if you are cutting curves that the blade will do it. B1 has a slightly wider blade, and B4 a narrower blade.
- New sandpaper put on the SandFlee. Remember to clean this out after usage, or put a vacuum on the outlet.
- Blade on Compound Mitre Saw (MS-1) changed.
- The riving knife and maybe the blade on TS1 was badly bent. Again, no one noticed. We have tried to straighten, but are awaiting a replacement. You cant do that sort of damage without noticing.
- Velcro on Festool Sander (SH2) is badly damaged, and no longer holds a disc or the disc-saver. I suspect someone has been using this without a pad. Please check before use. The bases are expensive.
- The F5 template on the Gifkin dovetail jig is badly damaged. See below. Once again, you can't do that without noticing. Please report these sort of issues. We need to find out how it happened.
- The rollers on the larger thicknesser (T1) were badly clogged with sap, and were leaving lots of marks on timber. Now cleaned. Probably needs checking if you are machining laminated beams.
-

Safety/Security/Facilities

- The Sherwood Router (RT1) was left powered on overnight. This runs the inverter and the pump, so not good practice.
- The compressor and dryer left on overnight.
- The drum sander left unlocked overnight and not cleaned.
- Bandsaw (B1) left running unattended.

New Equipment

The second familiarisation workshop for the CNC was held on a Sat, and was also well attended. Good to see a few members working their way through the tutorials.

Club Projects

No progress on the clean-up of the area to the immediate south of the Henderson Shed and Timber storage this month, as we are awaiting an end to the rain and hot muggy weather. Sheree has made great progress on the start of the nature walk though.

Rob Forsythe is nearing completion on the work on the boxes and tables he is making for the Sunshine Coast Council libraries. He always appreciates some assistance, so if you are at a loose end, and want to learn some new skills, talk to Rob and give him a hand.

We will make a start soon on the benches for the Maleny Hospital. A notice will be circulated asking for volunteers to help the Thurs group with this work.

Finally the rogue's gallery.

The TS1 riving knife that **no-one** noticed.

The F5 Gifkin template that no-one noticed.

Kev Devlin and Ted White

Messages from John Isles

Please take a look at the attached photos. This is the state that Tablesaw TS1 riving knife was left in and found today Friday 09/05/2025. I know the saw wasn't used on Thursday 08/05/2025 which probably indicates that it was last used on Wednesday 07/05/2025. It is not good enough to leave a machine in this state. The riving knife has been removed and saw put out of service until the riving knife is repaired or a new one can be sourced. I also suspect that the blade could be distorted as well. I have replaced the blade. We need to report these issues so we can prevent them from happening again.

John isles

I want you to take a look at these photos. The drum sander was found in this state after morning tea last Wednesday 14/05/2025. Maybe the member that left it in this state might like to explain why. The second photo is of the conveyor on the drum sander it would appear that the drum has come into contact with the conveyor. Once again someone knows this happened but didn't think it necessary to report it. The third photo is of the Gifkin F5 Finger template. Look closely you will see one of the template fingers has been damaged. Probably happened because the router bit wasn't set up properly. Once again someone knows something about it but thought better about reporting it.

Let's reset our mindset and if something goes pear shaped REPORT IT.

A note from your editor.

My 3 year old grandson accidentally broke a toy on the weekend. He brought it straight to me told me he had broken it and explained it was an accident (of course he expected me to fix it).

It amazes me, or should I say appals me, that a 3 year old knows that he should take responsibility for his actions and yet we have adult members who are unable, or unwilling, to do so. Lesley Mott
